## Marie Skłodowska-Curie actions - Research Fellowship Programme

The Marie Skłodowska-Curie actions, named after the double Nobel Prize winning Polish-French scientist famed for her work on radioactivity, support researchers at all stages of their careers, irrespective of nationality. Researchers working across all disciplines, from life-saving healthcare to 'blue-sky' science, are eligible for funding. The MSCA also support industrial doctorates, combining academic research study with work in companies, and other innovative training that enhances employability and career development.

In addition to generous research funding, scientists have the possibility to gain experience abroad and in the private sector, and to complete their training with competences or disciplines useful for their careers. More information about various funding schemes and requirements for applying is available below.

FAROE ISLANDS FOR RESEARCHERS

Welcome to the portal of EURAXESS Faroe Islands. We provide information and assistance for mobile researchers – by means of this portal and with the support of our national EURAXESS Service Centre.

In this portal you will find practical information concerning professional and daily life as well as information on job and funding opportunities. If you do not find the information you need in this portal, do not hesitate to contact us personally. We are here to remove barriers and make your life easier.

Faroeese researchers planning to continue their research career abroad can also find useful information and assistance in this portal and in the portals of the countries they consider moving to.
