Excellent Science

Article | Newsroom

Activities under this Pillar aim to reinforce and extend the excellence of the Union's science base and to consolidate the European Research Area in order to make the Union's research and innovation system more competitive on a global scale.

The Excellent Science pillar has main four specific objectives:

1. The **European Research Council (ERC)** will provide attractive and flexible funding to enable talented and creative individual researchers and their teams to pursue the most promising avenues at the frontier of science, on the basis of Union-wide competition.
2. **Future and emerging technologies** will support collaborative research in order to extend Europe's capacity for advanced and paradigm-changing innovation. They will foster scientific collaboration across disciplines on radically new, high-risk ideas and accelerate development of the most promising emerging areas of science and technology as well as the Union-wide structuring of the corresponding scientific communities.
3. **Marie Skłodowska-Curie Actions** will provide excellent and innovative research training as well as attractive career and knowledge-exchange opportunities through cross-border and cross-sector mobility of researchers to best prepare them to face current and future societal challenges.
4. **Research infrastructure** (including e-infrastructures) will develop European research infrastructure for 2020 and beyond, foster their innovation potential and human capital, and complement this with the related Union policy and international cooperation.

SUPPORTING TOP RESEARCHERS FROM ANYWHERE IN THE WORLD

Who can apply? **STARTING GRANTS**

Researchers of any nationality with **2-7 years of experience since completion of PhD** (Extensions are possible under certain circumstances — see the latest **ERC Work Programme**), a scientific track record showing great promise and an excellent research proposal

Widening MSCA

Widening Fellowships

Context

The results from the first years of Horizon 2020 implementation reveal the existence of a **Research & Innovation gap** across Europe and **discrepancies between European countries** in their ability to attract excellent researchers.

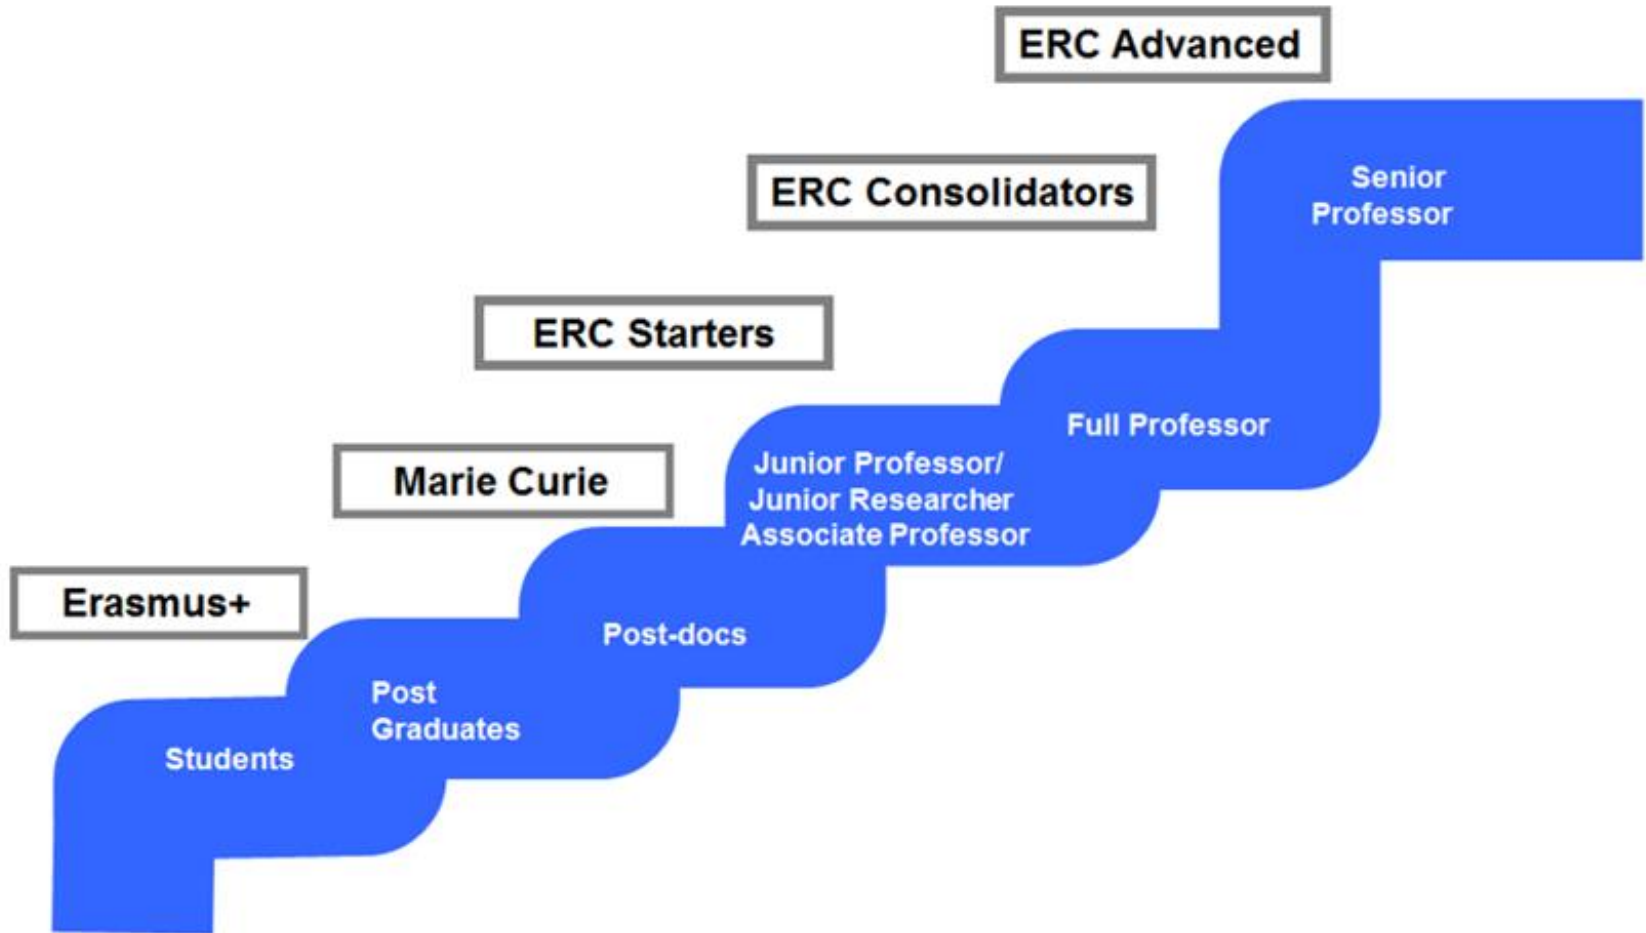

Widening countries tend to apply less, coordinate fewer projects and have a higher share of rejected proposals.

However, all Widening countries have many proposals above quality threshold and **a majority of widening countries have excellent (very high-scoring) proposals not funded due to lack of budget.**

Who can benefit from the widening fellowship?

Researchers applying for an MSCA European Fellowship in Widening countries, be it a Standard, Society & Enterprise, Career Restart or Reintegration Fellowship. Proposals above quality threshold but not retained for funding through the MSCA Individual Fellowship call with a host institution in a Widening country will be automatically reassigned to the Widening Fellowships call (unless the applicants explicitly opted-out).

Grants for an international career path.

Online Manual

The screenshot shows the 'RESEARCH & INNOVATION Participant Portal H2020 Online Manual' interface. At the top left is the European Commission logo. The main header is 'RESEARCH & INNOVATION Participant Portal H2020 Online Manual'. A search bar is located at the top left of the content area. A navigation menu on the left lists various sections under 'H2020 Online Manual', including 'My Area - User account & roles', 'Grants', and 'Register in the Participant Register'. The main content area is titled 'Grants' and features a large blue arrow pointing down to a flowchart. The flowchart is divided into three main sections: 'Applying for funding', 'Evaluation & Grant signature', and 'Grant management'. 'Applying for funding' includes steps: Find a call, Find partners, Register an organisation, and Submit a proposal. 'Evaluation & Grant signature' includes: Eligibility check, Evaluation of proposals, Grant preparation, and Grant signature. 'Grant management' includes: Keeping records, Amendments, Reports & payment requests, Deliverables, Dissemination & exploitation, Communicating your project, Acknowledgement of EU funding, and Checks, audits, reviews & investigations. A 'My Area - User account & roles' button is located at the top right of the main content area.

SC1-DTH-03-2018: Adaptive smart working and living environments supporting active and healthy ageing

Specific Challenge: Demographic change and the ageing of the population create new heterogeneous challenges for age-friendly living, recreational and working environments such as a shrinking workforce and increasing numbers of workers with functional impairments, chronic conditions, care duties or re-integration in and later retirement from the labour market.

Scope: Proposals should develop and validate digitally enabled adaptive services and solutions ¹²⁰ leading to smart work environments for older adults, supporting them to remain actively involved in professional life, helping them to sustain and renew their work and personal life related skills and support independent active and healthy lifestyles while taking into account reduced capabilities due to age-related health risks and conditions.

Expected Impact: Proposals should present methodologies and metrics as appropriate for measuring progress with significance towards the expected impact in:

- Independent living, and quality of life of older persons compared to current state of the art, enabling older persons to stay actively involved in work life for longer or return to work after severe disease;

Avmarkað síðutal – stutt og greitt!

⚠ Page limit: The title, list of participants and sections 1, 2 and 3, together, should not be longer than 70 pages. All tables, figures, references and any other element pertaining to these sections must be included as an integral part of these sections and are thus counted against this page limit.

The page limit will be applied automatically; therefore you must remove this instruction page before submitting.

Please, do not consider the page limit as a target! It is in your interest to keep your text as concise as possible, since experts rarely view unnecessarily long proposals in a positive light.

MEANINGLESS JARGON
SPOKEN HERE

Excellence, Impact og Implementation

- 3 partar í umsóknini

1. Excellence

Your proposal must address a work programme topic for this call for proposals.

⚠ *This section of your proposal will be assessed only to the extent that it is relevant to that topic.*

1.1 Objectives

- Describe the overall and specific objectives for the project¹, which should be clear, measurable, realistic and achievable within the duration of the project. Objectives should be consistent with the expected exploitation and impact of the project (see section 2).

1.2 Relation to the work programme

- Indicate the work programme topic to which your proposal relates, and explain how your proposal addresses the specific challenge and scope of that topic, as set out in the work programme.

1.3 Concept and methodology

(a) Concept

- Describe and explain the overall concept underpinning the project. Describe the main ideas, models or assumptions involved. Identify any inter-disciplinary considerations and, where relevant, use of stakeholder knowledge. Where relevant, include measures taken for public/societal engagement on issues related to the project. Describe the positioning of the project e.g. where it is situated in the spectrum from 'idea to application', or from 'lab to market'. Refer to Technology Readiness Levels where relevant. (See [General Annex G of the work programme](#));

-Klárt og greitt
-Kann máttast
-Veruligt
-Skal bera til í verkætlanini

- Nýggjur marknaður
- Vøkstur/longri livitíð
- Veðurlag/umhvørvi

2.2 Measures to maximise impact

[proposal acronym]

2. Impact

2.1 Expected impacts

⚠ Please be specific, and provide only information that applies to the proposal and its objectives. Wherever possible, use quantified indicators and targets.

- Describe how your project will contribute to:
 - each of the expected impacts mentioned in the work programme, under the relevant topic;
 - any substantial impacts not mentioned in the work programme, that would enhance innovation capacity; create new market opportunities, strengthen competitiveness and growth of companies, address issues related to climate change or the environment, or bring other important benefits for society
- Describe any barriers/obstacles, and any framework conditions (such as regulation, standards, public acceptance, workforce considerations, financing of follow-up steps, cooperation of other links in the value chain), that may determine whether and to what extent the expected impacts will be achieved. (This should not include any risk factors concerning implementation, as covered in section 3.2.)

a) Dissemination and exploitation² of results

- Provide a draft **‘plan for the dissemination and exploitation of the project’s results’**. Please note that such a draft plan is an admissibility condition, unless the work programme topic explicitly states that such a plan is not required.

Show how the proposed measures will help to achieve the expected impact of the project.

The plan, should be proportionate to the scale of the project, and should contain measures to be implemented both during and after the end of the project. For innovation actions, in particular, please describe a credible path to deliver these innovations to the market.

Útbreiðsla av
tilfari og úrslitum
-ráðstevna

...involvement, including groups beyond the project's own community.

3. Implementation

3.1 Work plan — Work packages, deliverables

Please provide the following:

- brief presentation of the overall structure of the work plan;
- timing of the different work packages and their components (Gantt chart or similar);
- detailed work description, i.e.:
 - a list of work packages (table 3.1a);
 - a description of each work package (table 3.1b);

Tables for section 3.1

Table 3.1a: List of work packages

Work package No	Work Package Title	Lead Participant No	Lead Participant Short Name	Person-Months	Start Month	End month
				Total person-months

Short name of participant							
Person months per participant:							
Start month				End month			

Objectives

Description of work (where appropriate, broken down into tasks), lead partner and role of participants

Deliverables (brief description and month of delivery)

Example, not to complete

	Award criteria Metingin		
	<p>Excellence</p> <p><i>The following aspects will be taken into account, to the extent that the proposed work corresponds to the topic description in the work programme:</i></p>	<p>Impact</p> <p><i>The following aspects will be taken into account:</i></p>	<p>Quality and efficiency of the implementation</p> <p><i>The following aspects will be taken into account*:</i></p>
<p>All types of action (except Framework Partnership Agreement; see below)</p>	<p>Clarity and pertinence of the objectives;</p> <p>Soundness of the concept, and credibility of the proposed methodology;</p>	<p>The extent to which the outputs of the project would contribute to each of the expected impacts mentioned in the work programme under the relevant topic;</p>	<p>Quality and effectiveness of the work plan, including extent to which the resources assigned to work packages are in line with their objectives and deliverables;</p>

Scores

Experts score each **award criterion** on a scale **from 0 to 5** (half point scores may be given):

- 0 Proposal fails to address the criterion or cannot be assessed due to missing or incomplete information
- 1 Poor – criterion is inadequately addressed or there are serious inherent weaknesses
- 2 Fair – proposal broadly addresses the criterion, but there are significant weaknesses
- 3 Good – proposal addresses the criterion well, but a number of shortcomings are present
- 4 Very good – proposal addresses the criterion very well, but a small number of shortcomings are present
- 5 Excellent – proposal successfully addresses all relevant aspects of the criterion. Any shortcomings are minor.

The maximum overall score is thus 15 (3x5), unless a weighting is applied.

Undirveitari / subcontractor

Útboðsreglur hjá landinum
Besta prís í mun til góðsku
Lægsta boð

Definition of a subcontract:

- A 'subcontract' means the **purchase of goods, works or services** that are identified in **Annex 1** of the GA as **action tasks**.

examples:

- ✓ *building a prototype, if described in Annex 1 as action task*
- ✓ *conducting a survey, if described in Annex 1 as action task*
- ✓ *analytical work, if described in Annex 1 as action task*

Characteristics of a subcontractor:

- receives an **order** and issues an **invoice**
- charges a price which usually includes a **profit** (no-profit rule does not apply)

Veitari sambært avtalu / Contractor

Definition of a service:

Keyp av vørum og tænastrum

- based on a contract for **services** which is **not** identified in **Annex 1** of the GA as an **action task**
- form of costs: **‘other direct costs’**

examples:

- ✓ *consulting costs (e.g. IPR)*
- ✓ *translation costs*

Munurin millum undirveitara og keyp

subcontracts	contracts for services
concern the implementation of action tasks (as are described in Annex 1)	do not concern action tasks, but they are necessary to implement action tasks by beneficiaries
must be indicated in Annex 1	do not have to be indicated in Annex 1
to be declared as 'direct costs of subcontracting'	to be declared as 'other direct costs'
no indirect costs	25 % indirect costs
best price-quality ratio or lowest price responsibility for the work lies fully with the beneficiary	

Triði partur í verkætlanini

- Tak støðu til triðja part í umsóknini
- Hugsa føroyskar undirveitarar – fleiri luttaka, størri stuðul til FO

4.2. Third parties involved in the project (including use of third party resources)

Please complete, for each participant, the following table (or simply state "No third parties involved", if applicable):

Does the participant plan to subcontract certain tasks (please note that core tasks of the project should not be sub-contracted)	Y/N
<i>If yes, please describe and justify the tasks to be subcontracted</i>	
Does the participant envisage that part of its work is performed by linked third parties ²	Y/N
<i>If yes, please describe the third party, the link of the participant to the third party, and describe and justify the foreseen tasks to be performed by the third party</i>	

Consortium Agreement

- Umsóknin
 - Grant Agreement (avtalan við Brússel)
 - Consortium Agreement (avtalan millum partarnar í verkætlanini) m.a. um ognarskap og ósemjur
-
- Art. 57 í GA – Belgisk lóg er galdandi - krav
 - OBS! Tað merkir ikki, at tað ikki ber til at áseta aðra nationala lóg í Consortium Agreement
-
- Hygg væl ígjøgnum báðar avtalurnar
 - Nýt DESCA frymilin, tað gera hini 😊
